

# School Readiness Reimbursement Rates

School Readiness (SR) Reimbursement Rates are set by the state per county. The current Alachua County SR Daily Reimbursement Rates are listed in the tables below (last increased 7/1/2024). Providers receive monthly reimbursement funds based on the accumulation of daily attendance submitted at the end of each month. Due to some differences, there is a separate table for centers (blue) and family homes (green).

Providers have the authority to charge their private paying families any amount they find fit for their childcare business as long as your tuition and additional fees are broken down for each parent prior to enrollment. Your private pay rates do NOT need to match the SR Reimbursement Rates. Whether your private pay rates are higher or lower, you will receive these SR Reimbursement Rates for SR services. There are also opportunities to earn differentials above the base SR Reimbursement Rates. For example, Gold Seal providers are granted a 20% differential. Providers with a Program Assessment score between 45.00-5.99 are granted a 7% differential, and 6.00-7.00 = 10%.

The SR Certificate of Eligibility (COE) issued to families have a unique parent co-payment which will be subtracted from the base SR Reimbursement Rate. SR providers are responsible for collecting those parent co-payments within 10 calendar days of their set payment due date (receipts should be maintained for 5 years for monitoring purposes). You may choose to charge families the difference between the SR Reimbursement Rate and your private pay rate, or you may choose to waive the difference. However, the parent co-payment is always required and cannot be waived.

NOTE: "Full Time" refers to a child that attends *6 or more hours per day*, and "Part Time" refers to a child that attends *less than 6 hours per day*. "Preschool 5" refers to a 5-year-old child that has not yet entered Kindergarten.

## Centers SR Daily Reimbursement Rates

Care Level	Full Time (FT) Daily	Part Time (PT) Daily
